### Audimat 3000

Audimat 3000 is a DIN-like, grid-constructed typeface, with a subtle blend of rigidity and eccentricity. We primarily use the Regulier weight and only for big important headlines.

### Söhne

Söhne is our supporting partner to Audimat 3000. It's designed in the memory of Akzidenz-Grotesk framed through the reality of Helvetica.

A real workhouse typeface with 4 families and 64 styles, LaunchDarkly primarily uses Buch and Kräftig weights.
